

**PARK COUNTY SCHOOL DISTRICT 6
BOARD OF EDUCATION POLICY**

JLA

STUDENT INSURANCE COVERAGE

The District recommends that students participating in marching band or athletic activities have medical insurance. The District does not provide medical or accident insurance. The District assumes no liability for injuries associated with participation in activities or athletics. Student accident insurance is available for purchase through a third-party provider. The District acts as a medium through which students may obtain third-party insurance, but has no role in negotiations between the insured and the third-party insurance company regarding a claim.

The Wyoming High School Activities Association (WHSAA) catastrophic insurance program provides coverage for enrolled students in middle school and high school who participate in an activity sanctioned by the WHSAA. Questions about coverage may be directed to the District's Activities Office.

Before any student shall be permitted to participate in marching band or athletic activities, they must sign a waiver that limits the District's liability for any injuries associated with marching band or athletic activities.
